

Key benefits of our Excipient GMP-grade PromoExQ medium product line

Always quality controlled. Always reliable.

Key benefits of our Excipient GMP-grade PromoExQ medium product line:

EXCiPACT™ GMP certification standard

Our premium Excipient GMP-grade cell culture solutions, manufactured at our site with a EXCiPACT™ certified quality management system with complete traceability.

Batch consistency

We proactively inform you about specification changes impacting compliance according to the IPEC Change Guide in its current version.

Custom GMP Services

Our customizable formulations and packaging options include:

- Tailored Excipient GMP-grade media: Modifications in formulation, quality control testing, and scalability
- Flexible packaging: From bottles to custom-sized bags, we adapt to your process needs
- End-to-end efficiency: Streamlined processes with optimized media formulations
- Certified manufacturing environment: Manufacturing site with an EXCiPACT™ certified quality management system

Traceability

With each batch of Excipient GMP-grade PromoExQ products, you directly receive the comprehensive documentation set to support your risk assessment. This includes:

- Certificate of Analysis (CoA)
- Excipient quality assessment file (EQAF)
- Statements on GMP compliance, BSE/TSE status, GMO, and microbial and viral safety (MVS)
- Certificate of Origin (CoO)
- Declaration of conformity
